

Anker energy storage power oem factory

What is Anker solar X1 home energy storage system (ESS)?

Anker SOLIX, known for portable power stations, launched the Anker SOLIX X1 Home Energy Storage System (ESS) for stationary solar + storage jobs across North America. The X1 home backup power system features a stackable and compact modular battery design, wide temperature range performance and an innovative energy optimizer.

How does Anker X1 work?

Connect X1 with Anker SOLIX Microinverter and EV Charger (EV Charger will release soon) to create a home micro-grid, then watch free solar power fuel your energy independence daily. Each battery is packed with an innovative energy optimizer for independent charging and discharging, providing more attainable energy.

Is Anker solar X1 a good battery?

"You need a way to store that energy -- and the Anker SOLIX X1 is the answer. With Anker's experience in battery technology, the X1 delivers excellent off-grid performance, especially in extreme cold or heat. We want to provide a way for homeowners to store and manage residential energy use for a more sustainable future."

What is Anker solid X1?

Anker SOLIX X1 transforms your power experience. Store solar energy during the day for nighttime use or off-grid. Enjoy savings on your power bill, too. Connect X1 with Anker SOLIX Microinverter and EV Charger (EV Charger will release soon) to create a home micro-grid, then watch free solar power fuel your energy independence daily.

What features does Anker solar X1 offer?

The Anker SOLIX X1 integrates power and battery modules in a sleek, minimalist 5.9-inch design. The X1 also includes features that cater to solar-enabled homes facing grid instability and potential power-outages. One cool feature of Anker SOLIX X1 is The Storm Guard Mode. This mode automatically detects and prepares for outages.

Does Anker X1 have a soft starter?

The calculation of 2350kWh more energy is based on Anker SOLIX X1's 15kWh batteries compared to a traditional home battery over 10 years. A soft starter is required when using X1 to power an air conditioner or a heat pump off-grid. X1 must contain at least three battery modules to reach 100% power at 131°F.

We want to provide a way for homeowners to store and manage residential energy use for a more sustainable future." The Anker SOLIX X1 Home Energy Storage System is crafted to provide residential developers with a comprehensive and scalable energy storage system for smart homes in the United States, Mexico and Canada.
