

Athens power storage manufacturer

Discover innovative power solutions globally with Sunlight Group. We specialize in cutting-edge technologies and solutions for sustainable energy, energy storage systems and advanced power management. Explore our portfolio and join us for a greener future.

In addition to electricity, grid operators need power plants that can provide services such as frequency regulation and voltage support, which are essential to maintain a safe and reliable electrical system. Because energy storage can release power on demand, adding BESS in strategic locations makes the grid stronger and more resilient.
