

What is the BRICS approach to energy cooperation?

The BRICS approach to energy cooperation is primarily based on the complementarity of the energy strategies of our countries. We have similar approaches to international cooperation, as well as common goals, including ensuring universal access to energy resources, energy security, and the fight against energy poverty.

How BRICS STI is facilitated?

This is facilitated by established mechanisms, including Summits, Ministerial meetings, Working groups, New Development Bank, Energy Research Cooperation Platform and BRICS STI framework program that provides financing mechanisms for joint research projects.

Why should you join BRICS?

BRICS provides a wide range of opportunities to exchange experience, coordinate the actions of participants and directly support projects to achieve the goals facing the member-states.

How will alternative transport be facilitated in the BRICS?

This will be facilitated by large-scale programs for the introduction of alternative transport, launched and planned in all BRICS member countries, including programs for the development of transport using electricity, gas, biofuels, and hydrogen.

The company focuses on stationary Energy Storage across all applications from Residential, Self - Consumption and Microgrid through to large scale stationary storage. We are Europe's first conference dedicated solely to energy storage since 2010. All of our Forum's culminate with the unique Building the Action Plan feature.

The Just and Sustainable Energy Transition, a core young expert group, has been aligned with the research study led under the Russian BRICS Presidency, namely the BRICS Just Energy Transition Report. The deliverables of the Expert Group will balance the BRICS Energy Research Cooperation Platform's stance on the just energy transition.

On September 22, 2022, the 7th BRICS Energy Ministers' Meeting was held in Beijing in virtual format. Mr. Zhang Jianhua, Administrator of the National Energy Administration of China, chaired the meeting.
