Dingxin is enjoying rapid growth in the big opportunity of the lithium-ion industry blossom.

Why is China launching a national energy storage Industry Innovation Alliance?

[Photo/China News Service]China came up with a national energy storage industry innovation alliance on Monday aiming to further boost the country's energy storage sector, as the country aims to promote large-scale use of energy storage technologies at lower costs to back up the world's biggest fleet of wind and solar power plants.

Why is China embracing new-type energy storage?

The new-type energy storage sector is embracing massive opportunities in China as the country has been promoting storage technologies in accordance with a massive wind and solar capacity build-out to allow exports of large-scale clean energy to other regions, Li said.

Established in 2018 and headquartered in Jintan District, Changzhou City, Jiangsu Province, SVOLT Energy Technology Co., Ltd is specialized in the research and development, production, and sales of cells, modules, battery packs, as well as large-scale energy storage, unit energy storage, medium-sized energy storage, home storage, portable storage and other full range ...
