We recommend the height of your dining chair seat cushions be between 18 and 20 inches from the floor. Any taller than this and shorter people won't be able to rest their feet comfortably on the floor. Dining chair cushions are usually only 1-3 inches thick, so choose a thickness that will provide the proper seat height for you and your guests.

The average height of a dining table is 74cm - 76cm so if your chairs have arms, and you're short on space, make sure they can be pushed under the table.
