

Our battery energy storage systems (BESS) help commercial and industrial customers, independent power producers, and utilities to improve the grid stability, increase revenue, and meet peak demands without straining their electrical systems.

For example, if your battery company provides a throughput warranty of 30 MWh, this means that the warranty is valid until the battery stores and delivers 30 MWh-or 30,000 kilowatt-hours (kWh)-of energy. Similar to a cycle life warranty, throughput warranties typically only apply if your battery delivers a set amount of energy before its ...
