

In today's spotlight, we bring you an image of Munich Maersk, which berthed at EUROGATE Container Terminal Hamburg on August 5 while on its maiden voyage. With a nominal capacity of 20,568 TEU, the container vessel is one of the largest in the world. The boxship, which flies the flag of Denmark, features a length of [...]

China - first hydrogen-powered ship makes maiden voyage. The "Three Gorges Hydrogen Boat No. 1", China's first hydrogen-powered ship, made its maiden voyage in Yichang City in central China's Hubei ...

Wan Hai A01 maiden voyage Qingdao Port Group in China conducted a grand inaugural voyage celebration event for the 13,200 TEU vessel Wan Hai A01. Wan Hai Lines' vessel has a total length of 335 metres, a width of 51 metres, a draught of 16 metres, and a top cruising speed of 22 knots.

HMM St Petersburg departed from the Port of Yantian on 30 Sep to set sail on its maiden voyage with 19,529 TEUs on board. Image Courtesy: HMM Consequently, all 24,000 TEU ships delivered to HMM have made their maiden voyage with a full load of cargoes, starting with HMM Algeciras which carried a total of 19,621 TEUs last May.

An ammonia-powered tugboat named NH3 Kraken has completed its maiden voyage as part of a research project designed to reduce carbon emissions from shipping. ... The huge container ships used to deliver cargo across oceans emit large quantities of air pollutants from their diesel engines, driving climate change and having human health impacts ...

What is Container Energy Storage? Container energy storage, also commonly referred to as containerized energy storage or container battery storage, is an innovative solution designed to address the increasing demand for efficient and flexible energy storage. These systems consist of energy storage units housed in modular containers, typically the size of ...

Maiden Voyage CO2 Dashboard; Maiden Voyage Dashboard; Media. Publications; Videos; Making of; Press kit; Blog; Contact; Menu. ... The philosophy of Green Rhino is to develop energy storage systems with an homogenous platform. This consistent design methodology based upon years of experience, makes our energy systems as indestructible as ...

History was made at HD Hyundai Heavy Industries (HD HHI) in Ulsan, South Korea as the world's first large methanol-enabled container vessel was named.. Anne Maersk, Image credit: Maersk. The 16,000 TEU ...

Energy storage container maiden voyage

maiden voyage in Yichang City in central China's Hubei Province on October 11, around seven months after its launch. ...

Leclanché supplied the 6.7 MWh battery system for the energy supply of the approximately 80 meters long and 15 meters wide containership with a deadweight of 3,120 tonnes or 120 standard containers (TEU).

Mardi Gras belongs to the world's largest cruise ship operator Carnival Cruise Line, built by Finnish shipbuilder Meyer Turku. It is the first cruise ship in the U.S. to be powered by liquefied natural gas (LNG). Mardi Gras' sister ship Carnival Celebration is scheduled to debut in late 2022 from Port Miami, along with an as-yet-unnamed vessel in 2023.

BYD Co.'s first chartered cargo ship has set sail as the automaker ramps up exports of electric vehicles. The BYD Explorer No. 1, capable of carrying 7,000 cars, is bound ...

The Yara Birkeland has completed its maiden voyage to Oslo in mid-November and then sailed on to Porsgrunn, the southern Norwegian production site of Yara International ...

What is energy storage container? SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects. The standardized and prefabricated design reduces user customization time and construction costs and reduces safety hazards caused by local installation ...

Renewable energy is the fastest-growing energy source in the United States. The amount of renewable energy capacity added to energy systems around the world grew by 50% in 2023, reaching almost 510 gigawatts. In this rapidly evolving landscape, Battery Energy Storage Systems (BESS) have emerged as a pivotal technology, offering a reliable solution for ...

The inland catamaran is the first hydrogen-powered boat inspected and classed by China Classification Society. The vessel was built by Jianglong Shipbuilding Co. Ltd. for Yangtze Power Co. and it will be used for transportation, patrol, and emergency response in the Three Gorges reservoir area and between the Three Gorges-Gezhouba dams.

The technical storage or access is strictly necessary for the legitimate purpose of enabling the use of a specific service explicitly requested by the subscriber or user, or for the sole purpose of carrying out the transmission of a communication over an electronic communications network.

The 16,000 TEU containership docked at the Eurogate Container Terminal Hamburg in the morning hours of March 28, 2024, for the first time, the Port of Hamburg said. ... The boxship is currently on its maiden voyage from Asia to Europe, starting from the Port of Colombo to Felixstowe, Hamburg, Antwerp, London, Le Havre, and back to Asia ...

Energy storage container maiden voyage

History was made at HD Hyundai Heavy Industries (HD HHI) in Ulsan, South Korea as the world's first large methanol-enabled container vessel was named.. Anne Maersk, Image credit: Maersk. The 16,000 TEU containership was named Ane Maersk after Ane Mærsk Mc-Kinney Uggla, the Chair of the A.P. Moller Foundation and A.P. Moller Holding.

The first autonomous zero-emission container ship Yara Birkeland has completed its maiden voyage in the Oslo Fjord. A two-year technology test phase begins before the ship is certified as "an autonomous, all-electric container ship." ... which draws its energy from a 7 MWh electricity storage system from Leclanché. The 80-meter-long and 15 ...

The Alphenaar, the first Dutch inland vessel to use interchangeable energy containers for propulsion, commenced its maiden voyage yesterday (6 September), transporting beer for Zero Emission Services" (ZES) first end customer, Heineken.

The Yara Birkeland has completed its maiden voyage to Oslo in mid-November and ... gas emissions equivalent to 40.000 container truck road ... in stationary energy storage systems, trains, buses ...

The world's first electric and self-propelled container ship, Yara Birkeland, has begun operations. Home; Energy. Ammonia; Biofuel; ... Yara Birkeland begins maiden voyage.
