

Where can I buy a spot welder?

Sold by buyinsave and ships from Amazon Fulfillment. When you receive the product, the spot welder has a low battery, so please charge it and use it. The following are suggestions we give you during the operation.

How does a spot welding machine work?

The spot welding machine is equipped with a built-in temperature control probe. When the battery temperature reaches 60°C /140 °F, the spot welding machine automatically shuts down. The spot welder automatically shuts down without any operation within 8 minutes.

Why should you choose a portable spot welder?

Our portable spot welders own perfect over-charge, over-discharge, over-temperature etc protection functions and double protection performance. Unique overheating protection device automatically cuts off power when the overheating occurs. Adjustable output power of 6 grades, more accurate welding and more stability welding.

Will a spot welder ship with my product?

This will not ship with your product. Plan is fully refunded if canceled within 30 days. Our portable spot welders own perfect over-charge, over-discharge, over-temperature etc protection functions and double protection performance. Unique overheating protection device automatically cuts off power when the overheating occurs.

What is a portable welder?

The portable welder has a small size and light weight compared to a bulky traditional spot welding machine, allowing for easy transport while still adopting the 100-240V wide-voltage input for use anywhere you need. The actual pulse time (welding power) grade, capacitor voltage and welding current are displayed on the LED screen.

Can a spot welding machine replace a battery?

To replace the battery, we can use our spot welding machine to replace the nickel plate on the phone. Our spot welding machine can weld materials such as nickel sheets and nickel sheets, nickel sheets and iron, nickel sheets and circuit boards.

Description. This projection welding machine are vertical motion type pressurizing mechanisms. Due to the compressibility of the air, the follow-up of the pneumatic welder is superior to that of the hydraulic welder, and the pneumatic system can be used for the vertical motion welder of all powers, so the projection welding machine mostly uses a pneumatic system.
