

# General manager of guorun energy storage

The state-of-health (SOH) estimation is a challenging task for lithium-ion battery, which contribute significantly to maximize the performance of battery-powered systems and guide the battery replacement. The complexity of degeneration mechanism enables data-driven methods to replace mechanism modeling methods to estimate SOH. The insight that motivates this study is that ...

Energy Storage in Pennsylvania. Recognizing the many benefits that energy storage can provide Pennsylvanians, including increasing the resilience and reliability of critical facilities and infrastructure, helping to integrate renewable energy into the electrical grid, and decreasing costs to ratepayers, the Energy Programs Office retained Strategen Consulting, ...
