The work that we do for our clients is key to making the energy transition possible. What we offer within our Graduate Programme: ... Energy Transition Academy - join a community of experts sharing your ...

In addition, Germany is the base from which we manage our global businesses like energy trading, gas and LNG. Some of these businesses have outposts as far afield as Chicago, Calgary, Singapore, and Dubai. Propelling Germany's energy transition. We're helping Germany reach its climate targets by quitting and creating. First, we're ...

Energy storage systems benefit from the connection privilege for RES plants to the public grid. Electricity stored in a storage system qualifies for the feed-in premium (Marktprämie), which is granted to the plant operator under the Renewables Act 2017 (EEG 2017) once the electricity is fed into the public grid. A specific provision of the EEG 2017 ensures that the EEG surcharge is ...
