"Wu Zhikuan, deputy general manager of production of Shanxi Guorun Energy Storage Technology Co., Ltd., told reporters. On May 9th, in front of the high-quality perfluorinated ion membrane production line of Shanxi Guorun, a small and medium-sized manufacturing industry cluster in Shuozhou Economic Development Zone, the reporter saw a ...

The state-of-health (SOH) estimation is a challenging task for lithium-ion battery, which contribute significantly to maximize the performance of battery-powered systems and guide the battery replacement. The complexity of degeneration mechanism enables data-driven methods to replace mechanism modeling methods to estimate SOH. The insight that motivates this study is that ...

The Yangquan High-tech Industrial Development Zone's energy storage power station has recently been connected to the grid, making it the largest independent energy storage power station in operation in North China's Shanxi province.
