Hangzhou Oxygen Plant Group has included new construction, acquisition, or managed operation and can provide an integrated solution for industrial gas centralized supply. They have developed a technological innovation system that integrates research and development, testing and design, the separation equipment industry, and boosting equipment.

The funding, part of the EU-supported PERTE scheme, will prioritize energy storage at new and existing power stations, testing its integration into a "100% decarbonized system", i.e....

Company profile for Hangzhou Oxygen Plant Group Co.,Ltd. (SHE: 002430) with a description, list of executives, contact details and other key facts. ... It offers purity gas, rare gas, new energy gas, mixed gas, electronic bulk, and excimer laser gas; and oxygen, nitrogen, argon, carbon dioxide, and hydrogen.

1988 Predecessor: Hangzhou Oxygen branch Yuhang oxygen machine factory . 1995. Yuhang oxygen plant factory produce small ASU plant, mini LNG plant, Co2 plant . 2011. He corporate reorganization and CYY ENERGY established . 2013. 2013 Because SGS qualified company, build new R& D center for high tech products, CYYGAS company founded . 2014 ...

In the iron and steel industry, the delivery of oxygen or oxygen-added air to the steelmaking furnace through the blower can effectively increase the steel output and reduce the energy consumption. At the same time, oxygen will facilitate the conversion of carbon to carbon dioxide, which helps reduce iron oxides to purer iron compounds.
