Energy is the first basic resource you get in the game. You generate Energy every time the green bar at the top left fills up and until it reaches its cap, which at the start of the game is 500. This cap will increase by 1 Energy every 20 Energy you get, at every rebirth. The initial soft cap is 100,000 Energy, and when you reach it, it'll stop increasing. The only way to get it higher is by ...
