

How much power does an aviator PHEV have?

Pitched against rivals like the Lexus RX 350, Volvo XC90 and Mercedes-Benz GLE-Class, the Aviator PHEV is packed with power, with the combined output of the gas-electric engine coming in at an eye-widening 494 horsepower. This is routed to all four wheels via a 10-speed automatic transmission and all-wheel drive, which comes standard.

Can you put a hybrid powertrain in a Lincoln Aviator?

To put a plug-in hybrid powertrain in your Lincoln Aviator means spending about \$10,000 extra compared with a similarly equipped Aviator with all-wheel drive. That's a significant amount of money, especially considering the non-hybrid version delivers its power more smoothly.

What is a Lincoln Aviator plug-in hybrid?

The Lincoln Aviator plug-in hybrid is a mid-size luxury SUV that offers three rows of seating, a long list of standard comfort features and safety equipment, plus the bonus of electric-only driving range.

Does Edmunds have a Lincoln Aviator plug-in hybrid?

Edmunds also has Lincoln Aviator Plug-in Hybrid pricing, MPG, specs, pictures, safety features, consumer reviews and more. Our comprehensive coverage delivers all you need to know to make an informed car buying decision. Read more at [Edmunds.com](https://www.edmunds.com).

Does Lincoln have a PHEV?

Once known for its large luxury cars, Lincoln now has an all-SUV lineup that starts at the compact Corsair and extends to the full-size Navigator. The 2020 Aviator PHEV is packed with power, with the combined output of the gas-electric engine coming in at an eye-widening 494 horsepower.

Does the Aviator have a hybrid powertrain?

Notably, the Aviator offers an available plug-in hybrid powertrain. It'll go about 21 miles on all-electric power before switching to regular hybrid operation. Recharge frequently either at home or at a public charging station and you can really start saving on gas.
