

With the goal of safety, green and high efficiency, Longji source network load storage integration innovates the power production and consumption mode, explores the development path for building a new generation power system with high integration of source network load, and realizes the deep coordination of source, network, load and storage.

By optimizing the actual load demand, integrating power supply and grid resources, taking advanced technologies such as flexible energy storage and innovation of system and mechanism as the support, and regarding "safety, green and high efficiency" as targets, to innovate the power production and consumption mode, explore the development path for building a new ...

LONGi is committed to building the world's most valuable solar energy technology company. It continues to focus on energy innovation to form the "green electricity + Green hydrogen" service capability supporting global zero carbon development.

LONGi is committed to building the world's most valuable solar energy technology company. It continues to focus on energy innovation to form the "green electricity + Green hydrogen" service capability supporting global zero carbon ...

Li Zhenguo, founder and president of LONGi Green Energy Technology, has given an online address to the 8th World Conference on Photovoltaic Energy Conversion held in Milan, calling for the PV ...

October 23rd, 2024 - LONGi Green Energy Technology (Hereinafter referred to as LONGi) officially announced a new world record for crystalline silicon module efficiency. According to the latest certification report from the Fraunhofer Institute for Solar Energy Systems ISE in Germany, the efficiency of the HPBC 2.0 module independently developed by LONGi has reached ...

LONGi PV Solutions . LONGi is a world leader in the clean energy transition. We provide a comprehensive suite of solar PV solutions that can optimize a wide range of project applications. ... LONGi Green Energy Technology Co., Ltd. (referred to as "LONGi") reported for the first time that crystalline silicon solar cells have broken the 27% ...

LONGi Green Energy Technology Co., Ltd.'s approach to biodiversity protection and no deforestation is based on the overall requirements of the United Nations Sustainable Development Goals (UNSDGs), the Convention on Biological Diversity, the Kunming-Montreal Global Biodiversity Framework, and China's Biodiversity Conservation Strategy and ...

Founded in 2000, LONGi is committed to being the world's leading solar technology company, focusing on customer-driven value creation for full scenario energy transformation. Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors ...

Ticker Symbol: 601012 Stock Name: LONGi Green Energy LONGi Green Energy Technology Co., Ltd. Semiannual Report 2024 Kindly reminder: The Semiannual Report 2024 in English is for reference only. The Chinese version shall prevail in case ...

Driving the technology in mass productions in global PV industry, saved \$30 billion costs for entire industry every year. Wafer. ... LONGi plans to integrate solar facilities with pumped storage in offshore areas featured with greater altitude differences and abundant sunlight. An industrial model of PV manufacturing driven by PV power has ...

DUBAI, United Arab Emirates, December 3, 2023 - LONGi Green Energy Technology Co., Ltd. (LONGi), a global leader in solar technology, today shared the company's groundbreaking strategic vision to implement energy equity in partnership with NGOs, non-profits, and other humanitarian aid organizations at COP28. This initiative also advances the ...

Renewable energy accelerates the replacement of fossil energy. With "Solar for Solar", LONGi officially joined the Global Initiatives RE100, EV100, EP100, and will keep building towards ...

The partnership between LONGi and Octopus Energy is set to increase the deployment of solar energy across the globe. The collaboration will provide consumers and businesses with greater access to advanced solar technologies, reinforcing both companies' commitment to supporting the transition to a low-carbon economy.

Under its mission of "making the best of solar energy to build a green world", LONGi has dedicated itself to technology innovation and established five business sectors, covering mono silicon wafers cells and modules, commercial & industrial distributed solar solutions, green energy solutions and hydrogen equipment. The company has honed its ...

LONGi Green Energy headquarters in Shaanxi, China. ... In Q3 2024, Sunrun added 230MW of solar PV capacity and 336MWh of storage, both a double-digit increase from the previous quarter.

LONGi awarded the ISO 20400 Sustainable Procurement by SGS. Xi'an, China, 21th August, 2024 -- The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), is pleased to announce that the company has been awarded the ISO 20400 for Sustainable Procurement by SGS, marking

Shanghai, China - June 14th - On June 14th, at the highly anticipated 2024 SNEC Expo in Shanghai, LONGi

Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi ") announced a major breakthrough in the development of its silicon-perovskite tandem solar cells.. According to authoritative certification by the European Solar Test Installation ...

Green Tour, Green World. LONGi joins hands with ATP to build a global low-carbon event. Learn More ... At first glance, solar energy and tennis may seem unrelated, but there are several meaningful connections between the two. Local News . 2024.9.17. Advancing Energy Equity: LONGi Illuminates Global Commitments at 2023 Global Refugee Forum. GRF ...

Under its mission of "making the best of solar energy to build a green world" and brand positioning of "the most trusted, reliable solar company that blazes the trail for green technology", LONGi has dedicated itself to technology innovation and established five business sectors, covering mono-crystalline silicon wafers, mono ...

Xi'an (China) 25th June -- From June 19th to 21st, the largest and most influential solar energy professional exhibition and trade fair to date globally--the 2024 Intersolar Europe--was held in Munich, Germany. The exhibition attracted approximately 3000 companies to exhibit, including LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as ...

China's Longi Green Energy has set a new world record for crystalline silicon solar module efficiency with its independently developed hybrid passivated back contact (HPBC) 2.0 module, achieving a ...

LONGi always stands at the forefront of solar photovoltaic technology, focusing on bringing better and sustainable value innovation to customers. Every time upgrade our technology, we lead the technological transformation of the photovoltaic industry and promote global energy transformation and green development.

As a leading solar energy technology company in the world, LONGi believes that photovoltaic technology is a powerful weapon to deal with climate change and plays a key role in achieving the 2030 sustainable development goals of the United Nations. LONGi is committed to becoming an advocate, practitioner and leader of global clean energy sustainable development, and ...

In the recent paper titled "Silicon heterojunction back contact solar cells by laser patterning", LONGi Green Energy Technology Co., Ltd. (referred to as "LONGi") reported for the first time that crystalline silicon solar cells have broken the 27% efficiency barrier, marking a significant advancement in photovoltaic (PV) technology. This milestone not only highlights the ...

China's Longi Green Energy has set a new world record for crystalline silicon solar module efficiency with its independently developed hybrid passivated back contact ...

Solar energy is the cheapest and most accessible form of energy. Now, it will be more efficient than ever.

Scientists from Chinese solar technology company, LONGi Green Energy Technology Co., Ltd, have developed a new type of solar cell that could be a game-changer in the world's transition towards renewable energy.

In 2020, China announced that it will strive to bring its carbon emissions to a peak before 2030 and become carbon-neutral before 2060. It noted that China will further transform its energy consumption structure by promoting the wider use of clean and renewable energy and build a New Energy-dominated Power System, as PV power playing an ...

KATOWICE, Dec. 11 (Xinhua) -- The combination of photovoltaics (PV) and energy storage will become the ultimate energy solution for mankind, said Li Zhenguo, president of LONGi Green Energy Technology Co., Ltd, a world-leading manufacturer of monocrystalline silicon PV products.

Algeria, Jul 3rd, 2024 -- On July 3 2024, the roundtable forum on "LONGi's Advanced Green Power + Green Hydrogen Solutions for Algeria" was successfully held in Algiers. The forum brought together key government agencies involved in the renewable energy sector and several project implementation companies to discuss the impact of technological innovation and high ...

With PV as the main generation source, a complementary power supply system consisting of wind, hydro, thermal and other power types can be integrated with battery energy storage and pumped storage, resulting in a more reliable, sustainable and stable supply of green power.
