

During 2024 and 2025, falling equipment prices and supportive policies will accelerate the development of U.S. energy storage market. However, C& I energy storage sees limited growth and requires more time to yield progress, given its premature market mechanism and suppliers failing to introduce effective profit models to manufacturers.

Jet Energy's rooftop solar PV installation for a factory in Casablanca. Image: Jet Energy. Ismail Tadlaoui, CEO of Jet Energy: "In this period of uncertainty, solar photovoltaic is the ideal solution for energy-users who wish to secure a competitive cost of electricity over the long term while improving their carbon footprint."
