

## Oslo energy storage company agent

Mission/Vision of the company. This company works to create sustainable energy resources for everyone, namely in developing countries that require help. Globally, more than a billion people lack electricity and have to rely on resources such as ...

Oslo, Norway 20 April 2023 - Kyoto Group and a world-leading renewable energy company will cooperate on introducing Kyoto's thermal energy storage solutions to industrial customers and have already submitted co-developed offers to several specific customers. "This is a game-changer for Kyoto.

Today Norway has not one, but two huge battery markets. "There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It's the key to turning intermittent wind and solar into a stable energy source," explains P&#229;l Runde, Head of Battery Norway.

Carbon capture: Hafslund Celsio. Hafslund Celsio (earlier Hafslund Oslo Celsio) plans to capture up to 400 000 tonnes of CO<sub>2</sub> from their waste-to-energy in Oslo.. Construction phase of Hafslund Celsio was entered in summer 2022, but set on hold spring 2023 after increased cost estimates. So the project is currently considering cost reduction potential, including doing a new FEED ...

PRESS RELEASE, The City of Oslo, Tuesday 22 March 2022, updatet 24 March: The new owners are Hafslund Eco, Infranode and HitecVision. The City of Oslo's shareholding in Fortum Oslo Varme will be transferred to Hafslund Eco, which will be the majority owner in the new company.

People that previously worked in the oil and gas industry are currently moving on to more renewable and green sources like solar power, batteries, offshore power, carbon capture and storage, and hydrogen. We are rapidly becoming large in the renewable energy sector and I believe Oslo will be an energy capital in the future.
