

Should you store outdoor power equipment in spring?

MILWAUKEE,WI (November 9,2017) - During the seasonal transition from fall to winter,yards become dormant for several months and yard work is reduced significantly. Briggs &Stratton Corporation reminds homeowners to prepare and store outdoor power equipment so it starts effortlessly in spring and helps ensure longevity of their equipment.

How do you store power equipment?

Store your spring and summer equipment in a clean and dry placesuch as a garage,barn or shed. Winter equipment should be kept away from the elements but be easily available for use when needed. Always keep your outdoor power equipment out of the reach of children and pets.

Should you winterize your outdoor power equipment?

Falling temperatures often signal it's time to perform preventive maintenance on your outdoor power equipment before storing them away for the long winter. Winterizing gas-powered outdoor equipment in preparation for cold weather can help prevent corrosion, deterioration and extend engine life.

How do you store a lawn mower in winter?

Briggs & Stratton Corporation reminds homeowners to prepare and store outdoor power equipment so it starts effortlessly in spring and helps ensure longevity of their equipment. There are five essential winter storage steps to extend the life of a lawn mower: 1. Add fuel stabilizer

Can power tools freeze in the winter?

Colder temperatures can cause fuel and other fluids in your outdoor power equipment to freeze,damaging the internal components of your equipment. For this reason,it's better to store power tools and equipment indoors or in a garage or shed during the winter,whenever possible.

How do I protect my outdoor power equipment during winter?

Winter equipment should be kept away from the elementsbut be easily available for use when needed. Always keep your outdoor power equipment out of the reach of children and pets. Clear the paths you use regularly in your yard,especially during the winter,and put away warm weather items.
