The preferred equity financing commitment comes from Goldman Sachs Asset Management's Private Equity and Sustainable Investing businesses. It will be paid out in ...

Asset manager Foresight Group has invested in a co-located 1.6GWh pumped hydro energy storage and wind project in Scotland. The project, at the disused 1,547-acre Glenmuckloch opencast coal mine near Kirkconnel, will see the construction of a 210MW/1,600MWh capacity pumped hydro energy storage plant along with a 33.6MW wind farm.

The Palaszczuk administration has set the state - historically Australia's most coal-dependent - a target of getting to 70% renewable energy by 2030, and introduced the AU\$62 billion Energy and Jobs Plan to support the energy transition.

MITEI's three-year Future of Energy Storage study explored the role that energy storage can play in fighting climate change and in the global adoption of clean energy grids. Replacing fossil ...

Compressed air storage group Hydrostor has landed an investment commitment of US\$25 million from Canada Pension Plan Investment Board (CPP). ... Canadian pension fund invests US\$25m in compressed air

storage provider Hydrostor. By Cameron Murray. April 20, 2022. ... Several high-profile sources have told Energy-storage.news that lithium-ion is ...

The company Tesla Energy Storage, part of the Czech Tesla group, will build in the Free Zone in the city of Br?ila, in the south-east of Romania, an equipment factory for energy storage, following an investment of 92 million euros. The storage systems that will be produced by Tesla Energy Storage will also be intended for wind and solar parks.

\$50,000 to the City of Tumwater for a feasibility study to plan and design solar with storage at each of the city's two fire stations. \$1 million to Cloudbreak Energy Washington, LLC, Mt. Vernon (two grants of \$500,000 each) for Peregrine 1 and 2 dual-use solar project that will combine commercial solar energy with agricultural practices ...

Energy storage for mobility, B2C and industrial applications will keep on evolving. Under a venture capital perspective, what's still hot in this industry? Here below some helpful ...

Penso Power is a leading developer of grid-scale battery energy storage systems; the originator and developer of Europe's largest operational battery storage scheme (the 100MW Minety project in Wiltshire) has signed a joint venture agreement with BW Group.

Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year it is moving to a larger venue, bringing together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place. Visit the official site for more info.

H& M Group is partnering with Rondo Energy, a provider of zero-carbon industrial heat and power, to explore the potential for heat storage technologies in its supply chain. The fashion retailer is also making an investment in Rondo and joining Rondo's Strategic Investor Advisory Board. The partnership will enable H& M Group and Rondo to explore ...

Queensland Energy and Jobs Plan guiding investments. The AU\$62 billion Clean Energy and Jobs Plan package underpins a target to reach 70% renewable energy in the state by 2032, retire coal assets and convert them into clean energy hubs and support pumped hydro and transmission system buildout. At the same time, the government is throwing its ...

Founded in 2009, Corvus provides purpose-engineered energy storage solutions for marine, oil & gas and port applications. By being the first company to provide a maritime battery with the needed capacity, lowered cost and high safety level, Corvus Energy became pioneers in maritime energy storage systems (ESS) for almost every vessel type.

Panama city group invests in energy storage

Corvus Energy, a supplier of zero-emissions energy solutions for maritime, offshore, and port applications, has secured an investment from Woven Capital, Toyota's growth fund, to speed up the development of its battery storage and hydrogen fuel cells and expand its geographical footprint.
