

Our focus is on developing and manufacturing high-voltage DC relays, contactors, fuses, and other electrical devices exclusively for EVs, solar energy systems, and energy storage applications. Electric Vehicles. High-voltage DC relays and fuses are key components in ensuring the safety of the battery system.

HIITIO was established in 2018 as a result of Hecheng Electric introducing a mature R& D team. HIITIO specializes in producing high-voltage DC electrical devices for EV, solar energy systems, and energy storage applications.

Hcf Series High Voltage DC Ceramic Sealed Contactor Relay 40A 1000VDC 24VDC Coil Spst-No Contact for Battery Charging, Photovoltaic and Energy Storage, Find Details and Price about High Voltage DC Contactor Ceramic Sealed Contactor from Hcf Series High Voltage DC Ceramic Sealed Contactor Relay 40A 1000VDC 24VDC Coil Spst-No Contact for Battery ...

In today's energy-conscious world, enterprises are increasingly adopting energy storage systems (ESS) to strengthen their energy management strategies. For the commercial and industrial ...

Solar power o Rail traffic o Marine & Offshore o Energy storage o Automotive charging infrastructure o DC grids Reliable and flexible o Coil control voltage range of 110 V - 250V AC, ... DC-1 contactor 300A/1000V XTCE300DCM22A MSAA183314

DC contactors are integral to energy storage systems, including batteries and supercapacitors. They facilitate the connection and disconnection of storage devices from the power grid, enabling efficient energy storage and utilization. ... HIITIO specializes in producing high-voltage DC electrical devices for EV, solar energy systems, and energy ...

Complies with DC-1 utilization category in IEC60947-4 Focus Applications: o Battery energy storage system o Photovoltaic inverters o Super EV charger o Magawatt charger High Voltage DC Contactors ECP Series ECP series high voltage contactors are designed for battery energy storage systems, photovoltaic inverters, and EV chargers.

It's widely used as EV contactor, main contactor in charging station, main contactor in EV, HEV, photovoltaic/ Solar system, energy storage, AGV, UPS, etc. Epoxy sealed. Magnetic arc blowout. Compact design, low noise. ... All DC contactors are 100% inspected before shipment. Products. 12-450V DC Contactors-ZJQ; 12-900V DC Contactors-EVQ; 12 ...

GF contactors allow remote and energy efficient switching in DC applications. By bringing contactor switching capabilities to 1500 V DC there are now additional options for PV inverter ...

o Energy storage systems o Photovoltaic inverter o DC converter o Battery protection board APPROVALS o CE: 724-00006 o UL: E82292 o TUV: R50616662 o CCC approved ... INDUSTRIAL / High Voltage DC Contactor ECK150B Series 2 High Voltage DC Contactor ECK150B Series. General Tolerance Dimension Tolerance <10 ±0.3 10 ~ 50 ±0.6

DC contactors play an important role for safety in photovoltaic power generation and energy storage system. In the event of disaster like fire or failure occurs, DC contactor can cut off the DC load to protect the system. It also ensure the efficiency of ...

EV Relays (DC Contactors) are used to turn on/off solar modules in photovoltaic systems. Based on its achievements in DC 400V electric vehicles, Hecheng will continue to commercialize EV Relays (DC Contactors) to DC 1000V and DC 1500V for electric vehicles and chargers, and will continue to be a pioneer in the renewable energy market.

ABB's new 1500 V DC GF contactor is the first to meet the IEC's new dedicated solar power DC-PV3 utilization category and adds another option to the company's range of 1500 V DC switching solutions. ... By feeding power into the grid or battery storage systems remotely and automatically, the contactor supports strategies that will improve ...

Battery energy storage moving to higher DC voltages For improved efficiency and avoided costs Today, most utility-scale solar inverters and converters use 1500 VDC input from the solar panels. Matching the energy storage DC voltage with that of the PV eliminates the need to convert battery voltage, resulting in greater space efficiency and avoided

The High Voltage DC Contactor can be used in EV, Electric Charging Station, ESS, Solar Photovoltaic, Wind Energy, Battery Backup System, Military Aerospace applications. Sort by Default Order Sort by Default Order

GF, GAF and GA contactors are specifically designed for switching DC circuits up to 1500 V. Thanks to the efficient breaking of DC circuits, the product range is one of the most compact on the market for applications such as PV Solar, EV charging, UPS and Energy storage systems. ABBs standard AF contactor range can also be used for switching DC ...

400a contactor for high voltage DC switch, gas filled, hermetically sealed, bearing high current and high voltage power. Continuous current 400 amps at DC 12-900Vdc, EVQ Series ... HEV, photovoltaic/ Solar system, energy storage, AGV, UPS, etc. Epoxy sealed. Magnetic arc blowout. Compact design, low noise. Build-in energy saving board; Optional ...

C303 - DC bi-directional switching. 1 pole compact bi-directional DC NO contactor of up to 1,500 volts and for continuous currents up to 350 amps for DC charging stations and battery storage systems.

Photovoltaic energy storage dc contactor

For a compact and efficient way of DC switching. GF, GAF and GA contactors are specifically designed for switching DC circuits up to 1500 V. Thanks to the efficient breaking of DC circuits, the product range is one of the most compact on the market for applications such as PV Solar, EV charging, UPS and Energy storage systems.

Sensata's robust High Voltage/High Power Load Break Bi-Directional DC Contactor is the ultimate solution for high voltage power conversion equipment OEMs signed for photovoltaic/battery inverters, battery pack designers, DC combiner boxes, and HVDC industrial drive systems, this contactor ensures optimal performance and safety. With excellent ...

The new ABB GF contactor provides bi-directional switching for loads up to 1050 A and up to 750 V DC per pole, making it possible to control large sections of the power plant. ...

Many renewable energy generation applications use DC power installations. Photovoltaic systems are a typical example. Depending on the system size, PV panels are connected together to form strings. The DC power is fed via an inverter into the distribution network, or ...

ECP Series High Voltage Contactors are designed for battery energy storage systems, photovoltaic inverters, and EV chargers. Rated switching current 150A, 250A, 350A, breaking capability at 1500 VDC They are hermetically sealed with ceramic sealing technology making it safe and reliable, applicable in 1500VDC voltage system.

Schaltbau . 1.6K views 3 years ago. The use of direct current in the case of solar plants and wind turbines, energy stores and charging stations has plenty of advantages in terms of efficiency. ...

and energy-storage and communication power supplies. At TE, we are dedicated to providing you with professional, ... Solar Power o Power conversion system o Battery system o Solar inverter Substation BESS ... terminal blocks, and DC contactors. 1 2 1 Off-Board Power Resistors 2 Terminal Blocks 3 Main DC Contactor 4 EMI Filter

HFE85P-250 HONGFA High voltage DC Contactor 1000V 250A, Find Details and Price about pv and energy storage application logistics v from HFE85P-250 HONGFA High voltage DC Contactor 1000V 250A - Beian (Suzhou) New Energy Co., Ltd. ... Li-ion battery 3.2V 50Ah cylindrical cell 2000times used in solar energy storage US\$11.20-12.20 / Piece. Gotion 3 ...

Introducing the GVB35 1000VDC Bi-Directional High Voltage DC Contactor - the ultimate solution for high voltage power conversion equipment OEMs. Crafted for photovoltaic/battery inverters, ...
