Portable Solar Energy Storage System. ePOWER1201 is an integrated battery system with a 12V 1.2KWh Lithium Ion battery pack. The battery configuration is a 4s1p 100Ah pack. It is typically programmed with 80%DOD, or 0.9KWh usable storage capacity.

In contrast, mobile storage only discharges energy on demand, and can do so instantly; they don't need to idle at all. This can dramatically lower energy costs, especially combined with their ability to charge off-peak at 10-15 cents per kWh. Beyond fuel savings, mobile storage batteries require much lower maintenance than diesel generators.
