

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

What can a portable power station Power?

A portable power station can power your phone, computer, or even your refrigerator. We researched the best portable power stations to help you decide which is right for you.

How much does a portable power station cost?

When choosing portable power stations for this list, we wanted to offer a variety of choices that will fit both your needs and your budget. Small, basic power stations start around \$500, but larger models can cost over \$3,000. We included options at both ends of this range, as well as a few middle-of-the-line choices.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Are portable power stations safe?

That's where portable power stations come in. While traditional generators are typically powered by gas and are only for outside use, these power stations provide electricity from large batteries that are safe to use indoors. Plus, they're fairly easy to transport, so you can actually take them with you on off-the-grid excursions.

Should you buy a portable power station?

Over the past few years, as people have turned away from gas-guzzling generators, portable power stations have enjoyed a meteoric rise. Whether you're camping for the weekend, living off-grid, or protecting against power outages, these big batteries can help. You can buy tons of power stations with varying portability and capacity.

Ugreen's Portable Power Station impresses with its 1200W capacity and 1024Wh power supply. Featuring 13 ports, including USB-A, USB-C, car/DC outlets, and AC outlets, it caters to diverse charging needs.

Whether you're looking for a power station for weekends off the grid, or you want to be prepared for a power shortage at home, RAVPower's 252.7Wh portable power station can meet the demand.

The price of portable power stations can be difficult to pin down, as they fluctuate substantially not only depending on the proximity of a retailer holiday like Amazon Prime Day or Black Friday, but also between retailer sites. For some of the portable power stations in my test, "list price" would vary between retailer sites by up to \$400.
