More recently, various companies, including Texas-based Kosmos Energy, carried out seismic surveys of offshore blocks. Currently Kosmos owns a 59 percent stake in oil block 5 located in the STP EEZ. After many false starts, in April 2022, a consortium consisting of Anglo-Dutch Shell and Portuguese GALP Energia started drilling in oil field 6 ...

EXECUTIVE SUMMARY. The island nation of São Tomé and Príncipe (STP) is located in the equatorial Atlantic in the Gulf of Guinea. STP is gradually taking positive steps toward improving its investment climate and making the country a more attractive destination for foreign direct investment (FDI).

However, the nation's abundant renewable energy resources, such as solar, wind, and hydropower, present a unique opportunity to transform its energy market and pave the way for sustainable development. One of the primary reasons for São Tomé and Príncipe's reliance on fossil fuels is the lack of a robust energy infrastructure.

More ess support will build the capacities of the Government of Sao Tome and Principe (STP) to formulate and implement a paradigm-shifting renewable energy (RE) and energy efficiency (EE) investment program, which will enable the country to achieve its climate mitigation targets in the Nationally Determined Contribution (NDC) and the 3rd ...
