Is Silan microelectronics a state-owned fund?

(Yicai Global) Feb. 22 --&#160;Shares of Silan Microelectronics soared after the Chinese chipmaker said a state-owned fund focused on the semiconductor industry plans to invest CNY600 million (USD95 million) in its 12-inch chip project.

How much money will Silan invest in Big Fund II?

Silan will invest another CNY285 million to promote the project. Founded in 2018,Silan Microchip&#160;put its first 12-inch chip production line into production last year. It has already launched upgrade and capacity expansion projects. Big Fund II has CNY200 billion(USD31.5 billion) in funding and was set up in 2019 to succeed Big Fund I.

Who is Silan microchip's largest shareholder?

After the transaction is completed,Xiamen Semiconductorwill remain Silan Microchip's largest shareholder with about 66.6 percent. Silan's stake will increase to 18.7 percent from 15 percent. Big Fund II will become the third-largest shareholder.

How much is Silan stock worth today?

Silan's stock price [SHA: 600460]closed 5.3 percent up at CNY52.73 (USD8.32) today,giving it a market capitalization of CNY74.7 billion (USD11.8 billion).

(Yicai Global) Dec. 19 -- Hangzhou Silan Microelectronics Co. [SHA:600460] will invest in a 12-inch integrated circuit production line project with total investment of CNY17 billion (USD2.6 billion), upon completion of which the company"s stake in the project company will rise to 85 percent from its current 15 percent, with this outlay set to boost its advanced manufacturing of ...

Liquid air energy storage (LAES) can offer a scalable solution for power management, with significant potential for decarbonizing electricity systems through integration with renewables. ... 2023, construction began on a 60MW/600 MWh LAES system for the grid with renewables, funded by China Green Development Investment Group Co., Ltd. in Golmud ...

Looking for an investment avenue that thrives even during economic uncertainty? Welcome to the world of self-storage! With explosive growth, boasting 1.7 billion sq. ft. in 2023, and remarkable expansions like 39.9 million sq. ft. in 2022 (equivalent to Central Park), this industry is a beacon of opportunity. But that"s not all.

China's National Integrated Circuit Industry Investment Fund, also known as the Big Fund, has provided Silan Microelectronics, a Chinese IDM specializing in automotive chips ...

Liquid air energy storage (LAES) has been regarded as a large-scale electrical storage technology. In this paper, we first investigate the performance of the current LAES (termed as a baseline LAES) over a far wider range of charging pressure (1 to 21 MPa). Our analyses show that the baseline LAES could achieve an electrical round trip efficiency (eRTE) ...

The transaction will include participation from existing investors, Xiamen Semiconductor Investment Group Co., Ltd. which will continue to hold 70% stake by investing CNY 210,000,000 and Hangzhou Silan Microelectronics Co., Ltd which will continue to hold 30% stake by investing CNY 90,000,000.

Stationary storage applications continue to be propelled by the deployment of renewable sources and new demand on batteries to serve as an energy buffer in EV/HEV charging stations. Residential battery storage systems are also in growing demand thanks to residential photovoltaic installations that generate electricity for home use.

On September 11, Silan Microelectronics, a well-known listed chip company, announced that it plans to jointly invest 1.6 billion yuan with Xiamen Semiconductor Investment Group Co., Ltd. ...

Spreading the investment across 58 projects in 44 US states and paid for through the Bipartisan Infrastructure Law, the initial disbursement will lead to the deployment of more than 35GW of additional renewable energy capacity and 400 separate microgrids, according to the Department of Energy (DOE).

Xiamen Silan Advanced Compound Semiconductor Co., Ltd. announced that it has received CNY 1.2 billion in funding from Hangzhou Silan Microelectronics Co.,Ltd, Huaxin Investment ...

Silan Microelectronics (Silan): Officially launched China's first 8-inch SiC power device chip manufacturing line project in Xiamen on June 18 this year, with a total investment of 12 billion RMB. The project will be built in two phases, with an annual production capacity of 720,000 8-inch SiC power device chips.

On September 11, Silan Microelectronics, a well-known listed chip company, announced that it plans to jointly invest 1.6 billion yuan with Xiamen Semiconductor Investment Group Co., Ltd. in cash to subscribe for an additional registered capital of 1.48155 billion yuan in its associated subsidiary, Xiamen Silan Microchip Manufacturing Co., Ltd. Silan ...

A total of 311 applications were received for clean energy or decarbonisation projects after the call for submissions opened last summer. Of these, seven were selected to receive direct funding from a EUR1.1 billion budget and include hydrogen, carbon capture and storage, advanced solar cell manufacturing and other technologies.
