How does energy work in soul Knight?

Decisions like these make the energy mechanic a valuable component in the complexity of Soul Knight gameplay. The primary way that the player combats enemies are with weapons. Players attack by approaching an enemy in range and pressing the "fire" button, dealing damage to the enemy and typically consuming energy as a result.

Does soul Knight have a competitive aspect?

This could even add a competitive aspect that Soul Knight somewhat lacks by letting guilds compete with one another for how well their players do in dungeon runs. Sign up to discover human stories that deepen your understanding of the world.

How do you get weapons in soul Knight?

Weapons can be gained from chests, vending machines, a shop during the run, or brought in from the lobby area of the game. The complex weapons system greatly affects the strategy of Soul Knight, letting the player make decisions on what weapons to use to suit their playstyle as well as the RNG elements that come with it.

How do Phantoms work in soul Knight?

In the Halloween biome of Soul Knight, there are enemies, called phantoms, that drift around the room invisible until they attack, releasing circular projectiles in every direction. Unlike other moving enemies, phantoms will not move toward the player, but instead, drift randomly.

How do you get currency in soul Knight?
