

Sunpower home energy storage monitoring

What does the new SunPower app mean for Solar & Storage customers?

“The launch of the new mySunPower app represents a major step forward for solar and storage customers,” said Jake Wachman, vice president of software product and engineering. “By combining system monitoring and control in a single, easy-to-use mobile application, SunPower is changing how homeowners interact with renewable energy technology.

What is the new SunPower monitoring app?

The new monitoring app builds on the existing mySunPower digital experience. Homeowners can now see their lease/sales proposals in mySunPower, upon deciding their preference for financing and agreeing to a system structure that best meets their needs, they can sign their initial agreement with SunPower in the application.

When is the new mysunpower app for monitoring available?

The new mySunPower app for monitoring will be available for download for SunPower Equinox® customers on Feb. 16 on the Apple App Store and Google Play and will be available to all of SunPower's 285,000 monitoring customers by spring 2021.

Does SunPower offer a solar & storage solution?

SunPower offers the only solar + storage solution designed and warranted by one company that gives customers control over electricity consumption and resiliency during power outages while providing cost savings to homeowners, businesses, governments, schools and utilities. For more information, visit www.sunpower.com.

Does SunPower have a solar battery system?

SunPower's solar battery system without backup captures and stores any excess solar energy your panels may produce during the day and saves it for use when utility rates are typically most expensive, helping you save money on your electric bill.

Who makes the earliest home solar power systems with online monitoring?

With more than 35 years of experience, it's no surprise that SunPower built some of the earliest home solar power systems with online monitoring.

All-in-One System with 5kW Hybrid Inverter and 10kWh Battery, Expandable up to 60kWh The SunPower Reserve Home Energy Storage System offers a compelling solution for homeowners in Australia seeking to take charge of their energy use.
