Discover the benefits of using a smart RFID cabinet for automated inventory and self-service storage. With RFID technology, you can easily manage access and inventory of items placed inside, reducing stockouts and ensuring correct distribution. Ideal for various sectors, this compact and intelligent solution provides real-time updates, saving time and improving efficiency.

That's a minimum of \$240 before taxes each year for one file cabinet. Multiply that for each of your file cabinets and that number grows quickly and it recurs year after year. Paper file storage creates additional hidden costs as well. Many businesses have entire rooms dedicated to paper storage -- space that could be used for employee ...

Behind this calm exterior is a highly functional diverse interior with endless possibilities. Each cabinet can be adjusted to meet the exact need in the department. Intelligent storage begins with intelligent modules. All of our modules can be easily transformed into smaller, custom tailored, exchangeable storage systems within themselves.

Convenient locking file storage for a lifetime of records. The cabinet can be used alone or as the base for the 6112 Return to create a compact workspace. Everyone needs a workspace that is comfortable and inviting, and if it can be beautifully designed and neatly organized all the better. Designed with an emphasis on [...]

It stops paper from accumulating and eating up expensive storage space. Depending on the budget, you can define the number of records to be digitized per month. The main benefit of using a Scan to Zero service is that there is no upfront or one-time investment you need to make to digitize your documents.

## Super storage cabinet can scan

**Description Options Dimensions** A beautifully finished curio / display cabinet in a fun, new design - with soft curves and rounded edges in Walnut.
