

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

Connected Energy is a world leader in developing and running safe commercial and utility scale battery energy storage systems using second life EV batteries. Connected Energy » Battery energy storage systems to power a cleaner world. ... England, NE1 1LE Company No. 07289730. We use cookies and similar technologies on our website and process ...
