

Vat rate for energy storage service fee

What is the current VAT treatment on the installation of energy-saving materials?

This briefing explains the current VAT treatment on the installation of energy-saving materials in the UK, analyses recent changes, and outlines recent developments. A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022.

Are solar and energy storage installations subject to VAT?

All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.

What is the VAT rate for solar panels?

According to the new provisions, member states will be free to apply a VAT rate of 0 to 5% to a restricted list of goods and services, with solar panels now being included in one of the seven categories described in a document related to the proposal.

Is there a zero-rate VAT on solar panels?

A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022. At the time, it only applied to England, Scotland, and Wales. Following a new agreement between the UK and the EU, the zero-rating was also implemented in Northern Ireland on 1 May 2023.

What is a 60% VAT rate?

The 60% test means that where the cost of the materials supplied as part of an installation (such as solar panels) is more than 60% of the total cost of the installation, the reduced VAT rate only applies to the labour required to install the materials, not the material themselves.

Will 5% VAT be imposed on solar panels?

The European Council has approved a proposal to amend the EU rules on rates of value-added tax (VAT) to give member states more flexibility to set them. If adopted, solar panels for residential and 'public interest' applications would be included in the list of goods and services for which a maximum of 5% VAT could be levied.

The storage fee calculator displayed below calculates the capacity fee for contracts with a contract period of at least 1 year.
