

# When will the national reserve be auctioned

How does the Federal Reserve assist in a Treasury auction?

The Federal Reserve assists in the auction by accepting and processing tenders, issuing securities to the successful bidders and serving financial institutions. For more information about Treasury Auctions, visit TreasuryDirect's Auctions (Off-site) page or the New York Fed's website (Off-site). This site is a product of the Federal Reserve Banks.

When are auctions held in the United States?

Usually on the first Wednesday of February, May, August, and November, the U.S. Treasury publishes a tentative auction schedule (PDF). The dates on the schedule can change, but seldom do. In addition to this schedule, we provide a general pattern of when auctions are held; this information is available by type of security and by month.

What is the Treasury securities upcoming auctions data dataset?

The Treasury Securities Upcoming Auctions Data dataset provides information on auction announcements. Each announcement includes what securities are being auctioned, the announcement date, the auction date and issue date. This data provides a notification of what treasury securities will be auctioned in the upcoming week.
