

Will Xinte energy expand its polysilicon capacity?

TBEA-owned Xinte Energy 's poly division has announced it will invest around RMB17.6 billion (US\$2.8 billion) to expand its polysilicon capacity by another 200,000 metric tons. The expansion plan approved by the board of TBEA today envisages the construction of a new factory in Changji county, in the Xinjiang Uygur autonomous region.

Where is Xinte energy's new polysilicon plant located?

Xinte Energy's existing major hub for polysilicon production is an 80,000MT facility in Urumqi,Xinjiang. The plans,which have yet to go through site selection and approval with the Baotou Municipal Government,include an initial polysilicon plant with an annual capacity of 100,000MT,requiring an investment of RMB8.0 billion (US\$1.24 billion).

Where is Xinte's new factory located?

Xinte's new manufacturing facility is planned to be located in Changji county,in the Xinjiang Uygur autonomous region. Moreover,Longi is planning to build another factory in Erdos City,Inner Mongolia.

Will TBEA build a new factory in Xinjiang Uygur?

The expansion plan approved by the board of TBEA today envisages the construction of a new factoryin Changji county,in the Xinjiang Uygur autonomous region. The plan is expected to be implemented in two 100,000-ton-annual-capacity phases and to be completed within 24 months after the start of construction,which is scheduled this year.

Xinte Energy Co., Ltd. is a holding subsidiary of TBEA Corporation. It is a high-tech enterprise group specializing in the development of new photovoltaic products, the development of new silicon-based materials, advanced ceramics, zirconium-based materials, new powder-based materials, etc., the development and operation of wind and light resources, and ...
