

Is zeekr the new EV battery manufacturer?

Zeekr becomes the latest manufacturer to launch such a battery in a competitive market, as it moves to cut dependence on external suppliers for the key component of electric vehicles, or EVs.

What is zeekr?

ZEEKR is a global premium electric mobility technology brand from Geely Holding Group. ZEEKR aims to create a fully integrated user ecosystem with innovation as a standard.

What is zeekr EV?

Stay tuned for more information about Zeekr. Zeekr enters Europe and selects global premium EV segment markets in due course. With support from global partners, Zeekr is able to produce the best-in-class vehicles with leading dynamics, connectivity, intelligence and shared functionality, bringing premium zero-emission transportation to consumers.

What battery does zeekr use?

Zeekr has used nickel-manganese-cobalt (NMC) batteries from the world's largest battery maker, CATL, to power its 001 crossover and 009 multipurpose vehicles (MPV). CATL has also launched fast-charging batteries to be used in Li Auto's first pure electric MPV MEGA, enabling a driving range of 500 km (300 miles) with a charging time of 12 minutes.

Will zeekr spin off its battery making unit?

Zeekr's Chinese rival Nio, which has also been developing battery technologies of its own, plans to spin off its battery making unit to ease costs, Reuters reported this month. Zeekr has used nickel-manganese-cobalt (NMC) batteries from the world's largest battery maker, CATL, to power its 001 crossover and 009 multipurpose vehicles (MPV).

Why is zeekr a leader in the Global Electric Mobility Market?

By improving charging speeds, expanding infrastructure and introducing advanced driving assistance systems, Zeekr continues to position itself as a leading player in the global electric mobility market.

Sunroof & storage. The Zeekr 009 features a dual-sunroof design that provides an impressive 7.4 square meters (79.6 square feet) of glass real estate, allowing light to flood the cabin for a greater sense of space and airiness. The maximum storage volume of the trunk is 2,979 liters (105.2 cubic feet).

Emerging in 2021, Zeekr made its mark as Geely's venture into the luxury electric vehicle domain in China, with a vision to match formidable competitors such as Nio and Xpeng. Zeekr zeroes in on creating upscale, technology-driven electric automobiles. At the core of Zeekr's operations lies a dedication to its consumers.
